

Thalia Woods

Looking for an apprenticeship — 24 months · 4 days / 1 day schedule

FULL-STACK WEB DEVELOPER

PROFESSIONAL EXPERIENCE

Front-end Developer — Julaya (B2B Fintech)

January 2025 – February 2026

- Designed and set up a headless CMS (**Strapi** + **Next.js**) connected to the [landing page](#) and the [blog](#): integration of Figma designs, data schemas, components and fetch logic, enabling marketing/communication teams to publish without going through the tech team.
- Fixed and evolved production front-end features in **TypeScript**, working with the product team to clarify edge cases and secure user journeys.
- Integrated a product & agile culture: ticket writing, regular exchanges with product and QA teams to limit regressions.

TECHNICAL PROJECTS

Jardin Solidaire

[GitHub Repo](#) · Ongoing

- Web platform connecting owners of underused gardens with people who wish to garden, with an aim of fostering social connection and community mixing.
- Designed the full-stack architecture (**Next.js**, **Node/Express**, **Prisma**, **PostgreSQL**, **Docker**) and the key data models (gardens, bookings, time slots).
- Secured the API and implemented unit and E2E tests on the main booking workflows.

Safe or Not? — Mobile project

[GitHub Repo](#) · Ongoing

- Designed an **iOS** app prototype that references doctors and healthcare organisations based on their level of safety and respect for patients.
- Developed the front-end in **SwiftUI** (navigation, first consultation/add-review screens) and laid the foundations of a **Django/GraphQL** backend (doctor models, reviews, reports).
- Built the product logic around trust: rating system, comments and reporting, as well as future moderation to protect users.

Vintage Gallery

[GitHub Repo](#) · Team project

- Contributed to the development of Vintage Gallery, a furniture e-commerce website built as a team (**React** + **Node/Express**, **MongoDB/MySQL**).
- Contributed to catalogue and product pages (listing, details, navigation) in **React**, with particular attention to responsiveness and component reuse.
- Worked on the back-end side for product and order management (Express routes, data access), with the challenges of a complete e-commerce journey.

Chess Game

[GitHub Repo](#) · Ongoing

- Developed a complete chess game in **JavaScript** and a refactor in **TypeScript** to better structure the domain logic (board, turn handling, move validation).
- Broke down a complex problem into small reusable functions (piece movement, invalid situation detection), with attention to readability.
- Used this project as a training ground to consolidate my **TypeScript** fundamentals (strict typing, module separation, code documentation).

ADDITIONAL EXPERIENCE

Sales Assistant · Multi-skilled Employee · Activity Leader · Server

2016 – 2023

- Independently managed tills, stock, orders, window displays and merchandising in retail, ensuring warm customer relationships.
- Led workshops and tutoring for classes of around 25 students (ages 6 to 15), creating a climate of trust and adapting activities for students who needed support.
- Worked in hospitality (table service, taking orders, managing busy rush periods), staying efficient and organised under pressure.

EDUCATION

Ada Tech School 2023 – 2026

RNCP Level VI (Bachelor equivalent)

Application Design and Development.

Aix-Marseille University 2020 – 2021

DAEU A - Graduated with High Honours (University Entrance Diploma).

Atelier de Sèvres 2016 – 2017

Art Foundation Programme — Fashion.

SKILLS

Front-end:

React · Next.js · TypeScript · Tailwind
· Angular · HTML · CSS

Back-end:

Node.js · Express · Strapi · Python · PHP

Mobile:

iOS (SwiftUI)

Data / ORM:

PostgreSQL · Prisma · MongoDB · MySQL

Tools:

Git / GitHub · Docker · Figma · Jira

SOFT SKILLS

Creative · Adaptable · Pedagogical

Team spirit · Proactive

LANGUAGES

English: native C2

French: bilingual C2

Spanish: fluent B2

VOLUNTEERING

Les Papillons Blancs de Paris

IT workshops for people with disabilities

Marseille Mathematics Club

La Maraude Sans Nom Marseille

Outreach and support for undocumented people

French Red Cross — Paris

Outreach and food collection

Shotgun Paris — Public Relations

Public relations for events

INTERESTS

- Illustration (ink / watercolour)
- Upcycling (clothing, furniture)
- Piano (personal practice)
- Tattooing (beginner)
- Writing (short fiction, poetry)
- Auteur cinema
